

WMA Report for Taiwan

Last year was the first year we participated in WMA activity. Although due to Covid, we lost most of the scheduled participant. We are hoping as the Covid situation starting to ease, we will have better turn out for future.

Right now Cross Country Skiing is still not a popular sport in Taiwan, we are trying to promote at all front. Our youth participating in the FIS World Juniors will help the exposure. Unlike most other WMA members, our masters are doing rollerskiing due to lack of skiable snow in Taiwan. So everyone is looking forward to the opportunity when possible for our Masters.

Overall, we are growing a little by little as our overall program grows. Thanks for all other WMA members and their continuing support.

Director, Taiwan

Jeff Wang
