

THE SLOVAK MASTERS CROSS - COUNTRY SKI ASSOCIATION

Slovak masters report 2018/19

All planned race in Slovakia took place. Two were Slovak Championship and four Slovak Cup races. In total we rate races in 3 categories for women and in 5 categories for men. The number of athletes this year unfortunately decreased, especially in the last two races at the end of February and beginning of March. Altogether, 86 athletes participated in at least one race.

The 21 Slovak athletes joined the MWC in Beitostolen. We managed to win 6 medals, two of each metal, which is a new record for us (4 medals from Klosters was the previous one). Our expedition was satisfied with the track preparation, stable temperatures and overall level of organization (except for the opening and closing ceremony, which we found lacking).
