

Annual Report Spain 2019/20

Last season in Spain was marked by the unchangeable weather (a lot of snow in November, few in January a bit more in February etc...) And finally by the Covid 19 situation.

It was not an obstacle to celebrate the regional Championship (Aragon, Andalucía, Catalunya, mainly) and the third edition of the Spanish Cross Country Skiing Cup (6 trials).

The master's participations in the ,most competitive trials was very much reduced (4 participants), but the most popular trials, master´s participation were higher in number , more than 200

I hope that the cancellation of Cogne 2020, and the postponement of Canmore 2021 to 2022, will not discourage the usual participants.

I wish that this will have a counter effect and everybody will be eager to meet again and participate in Canmore 2022.

Anton Auladell

National Director Spain
